Outline

1. Goals & Objectives
2. Achievements & Outcomes
3. Post Projects Plans
Goals & Objective

Exploiting autistic children’s natural focus on smartphones for treating autism

Therapeutic learning provided at homes

Reducing expenses imposed on families.
Achievements & Outcomes

**Design Considerations:**
- Chose appealing colors for autistic children (i.e. blue & brown)
- Used & processed high quality pictures to be used in the child app
- Enabling parents to personalize the language based on family roots
- Allowing parents to add new lessons as they see fit
- Creating incentives for autistic children to continue learning

**Publication:**
Post Projects Plans (Implementation)
